1) Number the number line. Write all positive numbers in black and all negative numbers in red.

2) What is the highest number on your number line? _____

3) What is the lowest number on your number lines? _____

4) Which is higher, -5 or -8? _____

5) Use the number line to compare the integers.

$4 \bigcirc -6$ $-4 \bigcirc -7$

$-3 \bigcirc 2$ $-1 \bigcirc -5$

6) Use the number line to order the integers from least to greatest.

$$3, -7, \ 5, -4, \ 0$$

$$-4, -8, -3, -1, -6$$

7) Compare using < or >

$4 \bigcirc -6$ $\qquad$ $-18 \bigcirc -12$

$-15 \bigcirc -10$ $\qquad$ $-17 \bigcirc 5$

$-125 \bigcirc -105$ $\qquad$ $-98 \bigcirc -89$

8) Order from least to greatest.

$$-45, \quad 38, \quad -32, \quad 41, \quad -36$$

$$-4, \quad -4.6, \quad -3.9, \quad -3, \quad -3.5$$
