Name: $\qquad$
$\qquad$

## Dividing Fractions

Solve each using the traditional algorithm and by making a model. Compare your answers.

Traditional Algorithm

1) $\frac{1}{2} \div \frac{1}{3}=$

Do your answers match? $\qquad$
2) $\frac{2}{3} \div \frac{1}{4}=$

Do your answers match? $\qquad$

$\qquad$
3) $\frac{5}{6} \div \frac{2}{3}=$

Do your answers match? $\qquad$
$\square$
